

Congratulations on your purchase of a *SOLITUDE* fly fishing reel manufactured by EDCO, Inc. We feel confident you will receive many enjoyable and trouble-free hours of use with your *SOLITUDE* reel. If you do encounter a problem or have a question, please do not hesitate to contact us. We would love to hear from you.

**Operating Your SOLITUDE reel**

**Drag Operation** -Turn drag adjustment knob to increase the drag (clockwise for left hand retrieve, counterclockwise for right). **STORE your reel with NO TENSION on the drag.**

**Spool Removal and Attachment**-To attach the spool to the housing first tighten the drag knob. Gently slide the spool down onto the housing turning it back and forth until it engages with the spool. The clutch housing has four vertical slots, a pair of tabs engages with these slots. This was designed to ensure a snug fit between housing and spool. You will feel and hear the spool engage with the housing. To disengage spool, push spool button down while pulling out on spool.

For instructions on reversing the retrieve please see attached page.

**Care and Maintenance**

For best performance, maintain your *SOLITUDE* Reel by rinsing it with fresh water after each use. Any additional maintenance that is not performed by *SOLITUDE REELS/EDCO, Inc.* or authorized repair center will void the lifetime warranty, of your reel. **IMPORTANT: remember to take off the drag when not in use.**
